

PRODUCT PROFILE

Zebra® Sump Level Regulator™

Automate your fluid top-off process to save labor time and lower material costs

- Eliminate fluid fluctuations due to carry off
- Eliminate fluctuations in fluid concentration due to evaporation
- Heavy-duty, mechanical components require no electricity or pneumatics
- Installs easily in minutes with high-strength, magnetic mounting
- Industrial design requires no maintenance or parts replacement
- Available for use with coolant and other industrial fluids
- Best when used with Zebra Proportioning Pump or Fill-Station™

Zebra Fill-Station, using Zebra Proportioning Pump

Model	Part Number	Description	Max Fluid Temp.	Dimensions, extended fully
Sump Level Regulator	MIXXSLR.P	Sump Level Regulator w/ polyethylene float	100°F (38°C)	32" (81cm) long x 15" (38cm) high
	MIXXSLR.S	Sump Level Regulator w/ stainless steel float	212°F (100°C)	32" (81cm) long x 15" (38cm) high
