ZEBRA SKIMMERS INTRODUCES UNIVERSAL MACHINIST MIXER

Cleveland, OH—Zebra Skimmers Corporation, a full line manufacturer of oil skimmers and coolant maintenance equipment, recently introduced its Universal Machinist Mixer. The Universal Machinist Mixer, the newest to the Machinist Mixer line, accurately mixes metalworking fluids and other chemicals from a variety of concentrate containers such as pails, drums or totes.

Meg Grant, Inside Sales & Service, said “There was a need for a durable mixing unit which would be appropriate for any container the customer may be using. The addition of this mixer to the line benefits our customers since it grows with the customer, as their coolant use increases. It is also convenient for our distributors.”

Benefits of the Machinist Mixer line include:

- Lifetime warranty on all parts
- Dial adjustment for simple and accurate mixing
- Check valve keeps mixing chamber loaded
- Steel or galvanized stand pipes
- Includes water ball valve and discharge hose
- Lockout available to prevent tampering

Zebra Skimmers, the leader in coolant maintenance for over a decade, invents new technology to save its customers money on coolant while reducing waste, and sells and supports its equipment worldwide. Most products are guaranteed for at least one year and some for life.
